

GEOGRAPHY

Australia is located southeast of Asia, and is the only country in the world to occupy a single continent. It is bordered by the Pacific Ocean, the Indian Ocean, the Southern Ocean, the Tasman Sea, the Coral Sea and the Arafura Sea. The nearest country is not New Zealand and Australia or Oceania. The Australia continent and the nearby island of Tasmania, form the sixth largest country on earth, with a total area of 7,686,850 sq km. This large area is populated by only 19 million people, making Australia the most sparsely populated continent after the Antarctica. Australia continents of six states and two territories.
