

Metallica was founded in Los Angeles October 15, 1981 by guitarist and vocalist James Hetfield and drummer Lars Ulrich , after both advertised for creating groups in the publication «The Recycler». However, as it turned out later interview Ron Makgovni magazine «So What!», James and Lars introduced between a mutual friend Hugh Tanner , who at the time was the lead guitarist in the band and Ron James «Leather Charm». Duo invited bassist Ron Makgovni familiar Hatfield in his previous group «Leather Charm», but in the early stages of the band always had problems with guitarists , so they have first gone through several Lloyd Grant, Brad Parker and Jeff Warner. Metallica got its name when Ron Quintana asked Lars Ulrich to help him choose a name for their new magazine for American and British metal bands . Quintana had options such as «Metallica», «Metal Mania» and «Hesse». Ulrich realized that «Metallica» would be a great band name and told Ron that this name hardly anyone would have liked.
